New designs, new colors, *and* new products . . . are among the featured Gold Seal patterns for June, 1954.

The big, high-fashion news in Gold Seal Floors and Walls starts on page 3 with new Gold Seal Cork Tile . . . the top quality cork tiling with a special built-in soil resistance. On pages 5 and 6 you'll find new decorator colors in Jackstraw, America's No. 1 inlaid linoleum design . . . as well as in colorful new "Sequin."

There's exciting news in Gold Seal Vinyl Inlaids on page 7 . . . and an introduction to the dramatic new styling in Gold Seal Congoleum on page 8.

All in all, it adds up to quite a story . . . a new high in color and design from the makers of the finest floor and wall coverings in the world.

GOLD SEAL

Cork Tile

New Gold Seal Cork Tile provides a long awaited advance in floor and wall covering . . . a luxurious, new tile product that combines all the comfort and sound-absorbent qualities of true cork with a built-in soil resistance unsurpassed by any other cork tile on the market.

Proved by carefully controlled traffic tests to be more highly resistant to soil, dirt and grime, this long-wearing Gold Seal Tile stays fresh and softly lustrous with a minimum of maintenance care.

Thanks to a modern manufacturing process that retains all the rich, natural color of true cork . . . Gold Seal Cork Tile is distinctly superior in color and appearance, too. Because only the finest cork granules and superior synthetic resins are used in its manufacture, it possesses a beauty and smoothness of texture not found in other tiling.
